Solder Paste Mixer Machine YX500S

SPECIFICATION	YX - 500S
Operating speed	Motor speed: 1350 RPM
	One revolution: 400RPM Two rotations: 300RPM
Operational capability	0-1000 g x 2 tanks
Acceptance of solder cream pot	Tank diameter $\Phi 60$ - $\Phi 67$ standard configuration (suitable for general 500g solder cream bottle)
Time setting	0.01s~99H99s, minute and second set
Display mode	LED digital display
Rated power	Constant speed 60W
Working power supply	AC 220V \pm 10% 50Hz
Boundary dimension	400 \times 400 \times 500mm
Machine weight	45kg
